

复旦大学数学科学学院
数学综合报告会

报告题目: **Manifolds with Ricci curvature bounded below (6)**

报告人: Prof. Rong Xiaochun
(Rutgers University and Capital Normal University)

报告时间: 2016-08-26 星期五 9:00-11:00

报告地点: 光华东主楼 1801

摘要: We will give a quick introduction to the Cheeger-Colding theory on the title. During lectures, there will be informal discussions, and some participants may present certain topics. Basic knowledge on Riemannian geometry and geometric analysis is required.
