

## 复旦大学数学科学学院 数学综合报告会

报告题目: Geometry of Moduli of Abelian Differentials

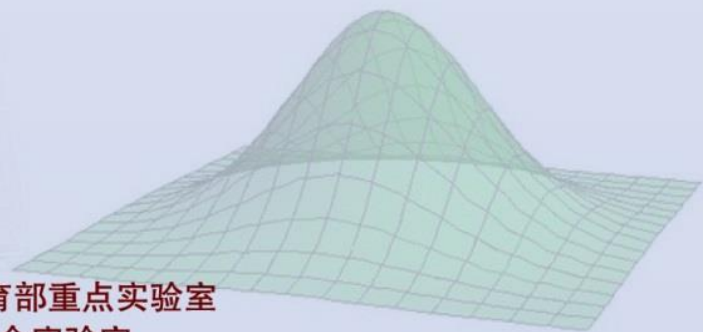

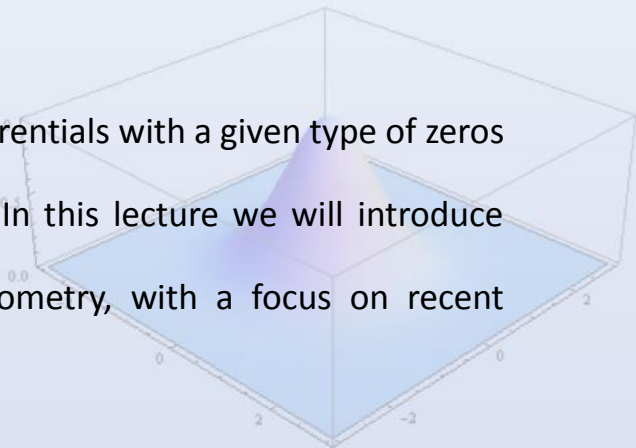

报告人: 陈大卫 教授

(美国波士顿学院)

时间: 2017-07-14 星期五 10:00-11:00

地点: 光华东主楼 1501

摘要: The study of moduli spaces of Abelian differentials with a given type of zeros has connections to many areas of mathematics. In this lecture we will introduce this topic from the perspective of algebraic geometry, with a focus on recent developments and open problems.
