

## 复旦大学数学科学学院 数学综合报告会

报告题目: **Regular Dirichlet subspaces and related topics**

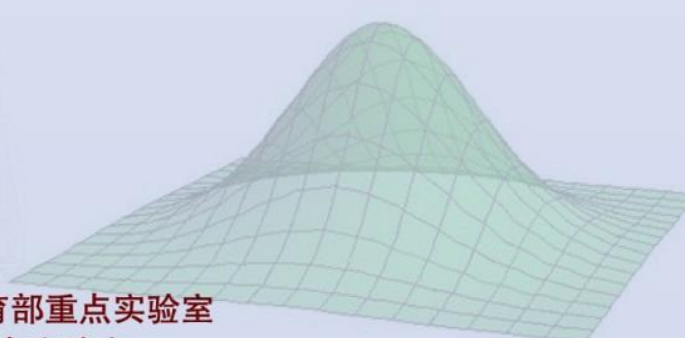

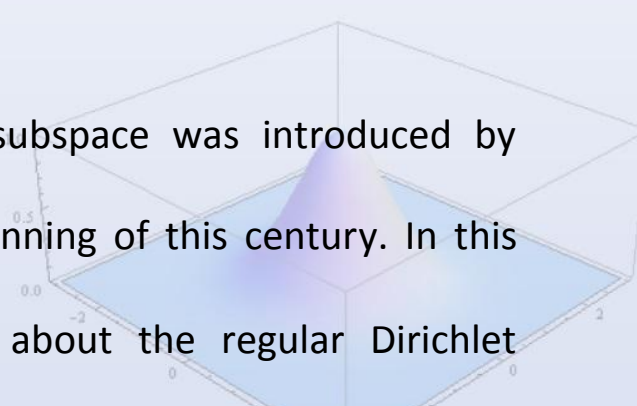

报告人: 李利平 助理研究员

(中国科学院数学与系统科学研究院 AMSS, CAS)

报告时间: 2017-11-30 星期四 16:30-17:30

报告地点: 光华东主楼 1501

摘要: The notion of regular Dirichlet subspace was introduced by Professor Fukushima and Ying in the beginning of this century. In this talk, I will report some recent studies about the regular Dirichlet subspaces and some relevant results. It is based on a series of joint works with J Ying.
